

We aren't just CPQ experts. We are THE authority in enterprise performance.

✓ ERP ✓ CPQ ✓ IIoT ✓ Business Intelligence

Unlocking the power of the CPQ Suite requires a team with extensive talent and deep domain expertise.

Leading companies today operate in a configuration environment that is Omnichannel and require a holistic approach weaving together solutions including configuration, 2D/3D visualization, Enterprise Quoter, AI, ML, Augmented Reality, IIoT, and analytics technology such as Birst just to name a few. Godlan has decades of experience assessing unique environments and tailoring complete solutions to meet the needs of growing companies.

Godlan. Proven. Trusted. Certified. Awarded.

Why choose Godlan?

- **Expertise in CPQ Software:**

Godlan has a proven track record of expertise and success implementing CPQ software, including an average of 16 years of CPQ-specific experience across the team. We possess a deep understanding of the market, including a specialization with Infor CPQ. Our consultants guide the implementation process, ensuring that the solution is effectively integrated into the company's business systems.

- **Industry-Specific Knowledge:**

Godlan offers industry-specific CPQ solutions and expertise to meet the unique requirements of our clients, as opposed to a "one size fits all" methodology. Godlan's consulting experience extends directly to the particular vertical of the client, making us well-equipped to provide tailored solutions that align with industry best practices.

- **Customization and Scalability:**

One key advantage of CPQ is its ability to be customized to fit a company's unique product catalog and sales processes. Godlan can assist in personalizing CPQ solutions to meet the company's specific needs, ensuring that the system is scalable and adaptable to future changes in the business environment.

- **Integration Capabilities:**

A successful CPQ implementation often requires integrating with various other software systems such as CRM, ERP, CAD, and E-Commerce platforms. Godlan's consultants are well versed in integrating CPQ solutions with these systems, streamlining data flow and improving overall operational efficiency.

- **Training and Support:**

After a successful CPQ implementation, ongoing training and support are critical for user adoption and system maintenance. Godlan offers training programs and ongoing support to ensure that the company's sales teams and other relevant staff can effectively use the CPQ solution. This helps maximize the return on investment and the long-term success of the CPQ system.
